A detailed cross-sectional view of a mechanical assembly, likely a valve or actuator. The assembly is symmetrical about a central vertical axis. Key components and labels include:

- 356**: A central vertical shaft or rod passing through the center of the assembly.
- 350**: A component at the top of the central shaft, possibly a seal or a guide.
- 331a**: Two components on either side of the central shaft, possibly guides or seals.
- 330'**: A component on the right side, possibly a seal or a guide.
- 333**: A component on the right side, possibly a seal or a guide.
- 315b**: A component on the right side, possibly a seal or a guide.
- 315a**: A component on the left side, possibly a seal or a guide.
- 313a**: A component on the left side, possibly a seal or a guide.
- 312a**: A component on the left side, possibly a seal or a guide.
- 314a'**: A component on the left side, possibly a seal or a guide.
- 311a**: A component on the left side, possibly a seal or a guide.
- 310a'**: A bracket grouping the components 315a, 313a, 312a, 314a', and 311a.
- 321'**: A component on the right side, possibly a seal or a guide.
- 322**: A component on the right side, possibly a seal or a guide.
- 320'**: A bracket grouping the components 321' and 322.
- 381**: A component at the bottom of the central shaft, possibly a seal or a guide.
